Safety Data Sheet

According to Annex II to REACH - Regulation (EU) 2020/878 and to Annex II to UK REACH

1. Product identifier			
Code:	772		
Product name	BLA	CK PLAST W	
.2. Relevant identified uses o	of the substance or mixture	and uses advised against	
Intended use	Mon	o-component fibre-reinforced bitur	ninous waterproofing product
3. Details of the supplier of t	the safety data sheet		
Name	NOR	D RESINE S.p.A.	
Full address		ornace Vecchia, 79	
District and Country	3105	•	(TV)
-		Italia	
	Tel.	+39 0438-437511	
	Fax	+39 0438-435155	
e-mail address of the compet			
responsible for the Safety Da	ata Sheet anna	breda@nordresine.com	
Supplier:	NOR	D RESINE S.p.A.	
4. Emergency telephone nur	mber

		visions set forth in (EC) Regulation 1 a safety datasheet that complies wit	
amendments and supplemen 2020/878.	nts). The product thus require oncerning the risks for health lication: acts on or via lactation	a safety datasheet that complies wit ind/or the environment are given in s H362 May ca	th the provisions of (EU) Regulation
amendments and supplement 2020/878. Any additional information con Hazard classification and ind Reproductive toxicity, effet Hazardous to the aquatic toxicity, category 3	nts). The product thus require oncerning the risks for health lication: acts on or via lactation	a safety datasheet that complies wit ind/or the environment are given in s H362 May ca	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children.
amendments and supplement 2020/878. Any additional information co Hazard classification and ind Reproductive toxicity, effe Hazardous to the aquatic toxicity, category 3 2. Label elements	nts). The product thus require oncerning the risks for health lication: ects on or via lactation environment, chronic	a safety datasheet that complies wit ind/or the environment are given in s H362 May ca	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children. ul to aquatic life with long lasting effects.
amendments and supplement 2020/878. Any additional information co Hazard classification and ind Reproductive toxicity, effe Hazardous to the aquatic toxicity, category 3 2. Label elements	nts). The product thus require oncerning the risks for health lication: ects on or via lactation environment, chronic	a safety datasheet that complies wi nd/or the environment are given in s H362 May ca H412 Harmfu	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children. ul to aquatic life with long lasting effects.
 amendments and supplement 2020/878. Any additional information control of the additional information control of the additional information and ind Reproductive toxicity, effect toxicity, category 3 2. Label elements Hazard labelling pursuant to additional additional information control of the additional information and information control of the additional information and i	nts). The product thus require oncerning the risks for health lication: ects on or via lactation environment, chronic	a safety datasheet that complies wi nd/or the environment are given in s H362 May ca H412 Harmfu	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children. ul to aquatic life with long lasting effects.
 amendments and supplement 2020/878. Any additional information control of the additional information control of the additional information and ind Reproductive toxicity, effect toxicity, category 3 2. Label elements Hazard labelling pursuant to Hazard pictograms: 	nts). The product thus require oncerning the risks for health lication: ects on or via lactation environment, chronic	a safety datasheet that complies wi nd/or the environment are given in s H362 May ca H412 Harmfu	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children. ul to aquatic life with long lasting effects.
amendments and supplement 2020/878. Any additional information co Hazard classification and ind Reproductive toxicity, effe Hazardous to the aquatic toxicity, category 3 2. Label elements Hazard labelling pursuant to Hazard pictograms: Signal words:	nts). The product thus require oncerning the risks for health lication: ects on or via lactation environment, chronic	a safety datasheet that complies wil ind/or the environment are given in s H362 May ca H412 Harmfu	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children. ul to aquatic life with long lasting effects.
amendments and supplement 2020/878. Any additional information con Hazard classification and ind Reproductive toxicity, effect Hazardous to the aquatic toxicity, category 3 2. Label elements Hazard labelling pursuant to Hazard pictograms: Signal words: Hazard statements:	nts). The product thus require oncerning the risks for health lication: ects on or via lactation environment, chronic EC Regulation 1272/2008 (C 	a safety datasheet that complies with and/or the environment are given in s H362 May ca H412 Harmfu	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children. ul to aquatic life with long lasting effects.
amendments and supplemen 2020/878. Any additional information co Hazard classification and ind Reproductive toxicity, effer Hazardous to the aquatic toxicity, category 3 2. Label elements Hazard labelling pursuant to Hazard pictograms: Signal words: Hazard statements: H362	nts). The product thus require oncerning the risks for health lication: ects on or via lactation environment, chronic EC Regulation 1272/2008 (C May cause harm to breas Harmful to aquatic life wit	a safety datasheet that complies with and/or the environment are given in s H362 May ca H412 Harmfu	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children. ul to aquatic life with long lasting effects. d supplements.
amendments and supplement 2020/878. Any additional information con Hazard classification and ind Reproductive toxicity, effer Hazardous to the aquatic toxicity, category 3 2. Label elements Hazard labelling pursuant to Hazard pictograms: Signal words: Hazard statements: H362 H412	nts). The product thus require oncerning the risks for health lication: ects on or via lactation environment, chronic EC Regulation 1272/2008 (C May cause harm to breas Harmful to aquatic life wit Contains: REACTIC	e a safety datasheet that complies will ind/or the environment are given in s H362 May ca H412 Harmfu .P) and subsequent amendments an -fed children.	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children. ul to aquatic life with long lasting effects. d supplements.
amendments and supplemen 2020/878. Any additional information co Hazard classification and ind Reproductive toxicity, effe Hazardous to the aquatic toxicity, category 3 2. Label elements Hazard labelling pursuant to Hazard pictograms: Signal words: Hazard statements: H362 H412	nts). The product thus require oncerning the risks for health lication: ects on or via lactation environment, chronic EC Regulation 1272/2008 (C May cause harm to breas Harmful to aquatic life wit Contains: REACTIC	-fed children. Ing lasting effects. NMASS OF 5-CHLORO-2- METHYL L-2H-ISOTHIAZOL-3-ONE (3:1)	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children. ul to aquatic life with long lasting effects. d supplements.
amendments and supplemen 2020/878. Any additional information co Hazard classification and ind Reproductive toxicity, effe Hazardous to the aquatic toxicity, category 3 2. Label elements Hazard labelling pursuant to Hazard pictograms: Signal words: Hazard statements: H362 H412 EUH208	nts). The product thus require oncerning the risks for health lication: ects on or via lactation environment, chronic EC Regulation 1272/2008 (C May cause harm to breas Harmful to aquatic life wit Contains: REACTIC 2-METHY	-fed children. Ing lasting effects. NMASS OF 5-CHLORO-2- METHYL L-2H-ISOTHIAZOL-3-ONE (3:1)	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children. ul to aquatic life with long lasting effects. d supplements.
amendments and supplemen 2020/878. Any additional information co Hazard classification and ind Reproductive toxicity, effe Hazardous to the aquatic toxicity, category 3 2. Label elements Hazard labelling pursuant to Hazard pictograms: Signal words: Hazard statements: H362 H412 EUH208 Precautionary statements:	nts). The product thus require oncerning the risks for health lication: acts on or via lactation environment, chronic EC Regulation 1272/2008 (C May cause harm to breas Harmful to aquatic life wit Contains: REACTIO 2-METHY May produce an allergic r	a safety datasheet that complies with and/or the environment are given in s H362 May ca H412 Harmfu .P) and subsequent amendments an .P) and subsequent amendments an .Iong lasting effects. N MASS OF 5-CHLORO-2- METHYL L-2H-ISOTHIAZOL-3-ONE (3:1) eaction.	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children. ul to aquatic life with long lasting effects. d supplements.
amendments and supplemen 2020/878. Any additional information co Hazard classification and ind Reproductive toxicity, effe Hazardous to the aquatic toxicity, category 3 2. Label elements Hazard labelling pursuant to Hazard pictograms: Signal words: Hazard statements: H362 H412 EUH208 Precautionary statements: P260	nts). The product thus require oncerning the risks for health lication: acts on or via lactation environment, chronic EC Regulation 1272/2008 (C May cause harm to breas Harmful to aquatic life wit Contains: REACTIO 2-METHY May produce an allergic r	a safety datasheet that complies with ind/or the environment are given in s H362 May ca H412 Harmfu .P) and subsequent amendments an .P) and subsequent amendments an .Iong lasting effects. N MASS OF 5-CHLORO-2- METHYL L-2H-ISOTHIAZOL-3-ONE (3:1) fraction.	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children. ul to aquatic life with long lasting effects. d supplements.
amendments and supplemen 2020/878. Any additional information co Hazard classification and ind Reproductive toxicity, effe Hazardous to the aquatic toxicity, category 3 2. Label elements Hazard labelling pursuant to Hazard pictograms: Signal words: Hazard statements: H362 H412 EUH208 Precautionary statements:	nts). The product thus require oncerning the risks for health lication: acts on or via lactation environment, chronic EC Regulation 1272/2008 (C May cause harm to breas Harmful to aquatic life wit Contains: REACTIO 2-METHY May produce an allergic r	a safety datasheet that complies with ind/or the environment are given in s H362 May ca H412 Harmfu P) and subsequent amendments an long lasting effects. N MASS OF 5-CHLORO-2- METHYL L-2H-ISOTHIAZOL-3-ONE (3:1) reaction.	th the provisions of (EU) Regulation ections 11 and 12 of this sheet. ause harm to breast-fed children. ul to aquatic life with long lasting effects. d supplements.

The full wording of hazard (H) phrases is given in section 16 of the sheet.

SECTION 4. First aid measures

4.1. Description of first aid measures

EYES: Remove contact lenses, if present. Wash immediately with plenty of water for at least 30-60 minutes, opening the eyelids fully. Get medical advice/attention.

SKIN: Remove contaminated clothing. Rinse skin with a shower immediately. Get medical advice/attention.

INGESTION: Have the subject drink as much water as possible. Get medical advice/attention. Do not induce vomiting unless explicitly authorised by a doctor.

INHALATION: Get medical advice/attention immediately. Remove victim to fresh air, away from the accident scene. If the subject stops breathing, administer artificial respiration. Take suitable precautions for rescue workers.

4.2. Most important symptoms and effects, both acute and delayed

Specific information on symptoms and effects caused by the product are unknown.

4.3. Indication of any immediate medical attention and special treatment needed

Information not available

SECTION 5. Firefighting measures

5.1. Extinguishing media

SUITABLE EXTINGUISHING EQUIPMENT The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder and water spray. UNSUITABLE EXTINGUISHING EQUIPMENT None in particular.

5.2. Special hazards arising from the substance or mixture

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE Do not breathe combustion products.

5.3. Advice for firefighters

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations. SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

SECTION 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Block the leakage if there is no hazard.

Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.

6.2. Environmental precautions

The product must not penetrate into the sewer system or come into contact with surface water or ground water.

6.3. Methods and material for containment and cleaning up

Collect the leaked product into a suitable container. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material.

Make sure the leakage site is well aired. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

6.4. Reference to other sections

Any information on personal protection and disposal is given in sections 8 and 13.

Revision nr.5 Dated 12/06/2023 Printed on 12/06/2023 Page n. 4 / 13 Replaced revision:4 (Dated 11/03/2022)

SECTION 7. Handling and storage

7.1. Precautions for safe handling

Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use. Remove any contaminated clothes and personal protective equipment before entering places in which people eat.

7.2. Conditions for safe storage, including any incompatibilities

Store only in the original container. Store the containers sealed, in a well ventilated place, away from direct sunlight. Keep containers away from any incompatible materials, see section 10 for details.

7.3. Specific end use(s)

Information not available

SECTION 8. Exposure controls/personal protection

8.1. Control parameters

REACTION MASS OF 5-CHLORO-2- METHYL-2H-ISOTHIAZOL-3-ONE AND 2-METHYL-2H-ISOTHIAZOL-3-ONE

(3:1)

Threshold Limit Value			
Type Country	TWA/8h	STEL/15min	Remarks / Observations
	mg/m3 ppm	mg/m3 ppm	
MAK DEU	0.2	0.4	INHAL

Legend:

(C) = CEILING ; INHAL = Inhalable Fraction ; RESP = Respirable Fraction ; THORA = Thoracic Fraction.

VND = hazard identified but no DNEL/PNEC available ; NEA = no exposure expected ; NPI = no hazard identified ; LOW = low hazard ; MED = medium hazard ; HIGH = high hazard.

8.2. Exposure controls

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration.

When choosing personal protective equipment, ask your chemical substance supplier for advice.

Personal protective equipment must be CE marked, showing that it complies with applicable standards.

HAND PROTECTION

Protect hands with category III work gloves.

The following should be considered when choosing work glove material (see standard EN 374): compatibility, degradation, failure time and permeability.

The work gloves' resistance to chemical agents should be checked before use, as it can be unpredictable. The gloves' wear time depends on the duration and type of use.

SKIN PROTECTION

Wear category I professional long-sleeved overalls and safety footwear (see Regulation 2016/425 and standard EN ISO 20344). Wash body with soap and water after removing protective clothing.

EYE PROTECTION

Wear airtight protective goggles (see standard EN 166).

RESPIRATORY PROTECTION

If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, use a mask with a type B filter whose class (1, 2 or 3) must be chosen according to the limit of use concentration. (see standard EN 14387). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required.

Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.

If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus (in compliance with standard EN 137) or external air-intake breathing apparatus (in compliance with standard EN 138). For a correct choice of respiratory protection device, see standard EN 529.

SECTION 8. Exposure controls/personal protection ... / >>

ENVIRONMENTAL EXPOSURE CONTROLS

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

Product residues must not be indiscriminately disposed of with waste water or by dumping in waterways.

SECTION 9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Properties	Value	Information
Appearance	pasty liquid	
Colour	black	
Odour	characteristic	
Melting point / freezing point	not available	
Initial boiling point	not available	
Flammability	not available	
Lower explosive limit	not available	
Upper explosive limit	not available	
Flash point >	100 °C	
Auto-ignition temperature	not available	
Decomposition temperature	not available	
рН	11	
Kinematic viscosity	not available	
Solubility	not available	
Partition coefficient: n-octanol/water	not available	
Vapour pressure	not available	
Density and/or relative density	1,1 kg/l	
Relative vapour density	not available	
Particle characteristics	not applicable	
9.2. Other information		
0.0.4 Information with no word to physical barrants		
9.2.1. Information with regard to physical hazard c	asses	

Information not available

9.2.2. Other safety characteristics

VOC (Directive 2004/42/EC) :	1,24 %	-	13,68	g/litre
VOC (volatile carbon)	0,46 %	-	5,05	g/litre

SECTION 10. Stability and reactivity

10.1. Reactivity

There are no particular risks of reaction with other substances in normal conditions of use.

DIPROPYLENE GLYCOL MONOMETHYL ETHER Forms peroxides with: air.

AMMONIA

Corrodes: aluminium,iron,zinc,copper,copper alloys.

10.2. Chemical stability

The product is stable in normal conditions of use and storage.

CHLORINATED PARAFFINS, C14-17 SADT >200°C/392°F.

10.3. Possibility of hazardous reactions

No hazardous reactions are foreseeable in normal conditions of use and storage.

DIPROPYLENE GLYCOL MONOMETHYL ETHER

May react violently with: strong oxidising agents.

AMMONIA

Risk of explosion on contact with: strong acids,iodine.May react dangerously with: strong bases.

@EPY 11.5.2 - SDS 1004.14

Revision nr.5 Dated 12/06/2023 Printed on 12/06/2023 Page n. 8 / 13 Replaced revision:4 (Dated 11/03/2022)

SECTION 10. Stability and reactivity ... / >>

10.4. Conditions to avoid

None in particular. However the usual precautions used for chemical products should be respected.

DIPROPYLENE GLYCOL MONOMETHYL ETHER Avoid exposure to: sources of heat.Possibility of explosion.

10.5. Incompatible materials

AMMONIA

Incompatible with: silver,silver salts,lead,lead salts,zinc,zinc salts,hydrochloric acid,nitric acid,oleum,halogens,acrolein,nitromethane,acrylic acid.

10.6. Hazardous decomposition products

AMMONIA

May develop: nitric oxide.

SECTION 11. Toxicological information

In the absence of experimental data for the product itself, health hazards are evaluated according to the properties of the substances it contains, using the criteria specified in the applicable regulation for classification. It is therefore necessary to take into account the concentration of the individual hazardous substances indicated in section 3, to evaluate the toxicological effects of exposure to the product.

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Metabolism, toxicokinetics, mechanism of action and other information

Information not available

Information on likely routes of exposure

METHANOL

WORKERS: inhalation; contact with the skin.

POPULATION: ingestion of contaminated food or water; contact with the skin of products containing the substance.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

METHANOL

The minimum lethal dose for humans by ingestion is considered to be in the range from 300 to 1000 mg/kg. Ingestion of 4-10 ml of the substance may cause permanent blindness in adult humans (IPCS).

Not classified (no significant component)

SKIN CORROSION / IRRITATION

Does not meet the classification criteria for this hazard class

Revision nr.5 Dated 12/06/2023 Printed on 12/06/2023 Page n. 9 / 13 Replaced revision:4 (Dated 11/03/2022)

SECTION 11. Toxicological information ... / >>

SERIOUS EYE DAMAGE / IRRITATION

Does not meet the classification criteria for this hazard class

RESPIRATORY OR SKIN SENSITISATION

May produce an allergic reaction. Contains:

REACTION MASS OF 5-CHLORO-2- METHYL-2H-ISOTHIAZOL-3-ONE AND 2-METHYL-2H-ISOTHIAZOL-3-ONE (3:1)

GERM CELL MUTAGENICITY

Does not meet the classification criteria for this hazard class

CARCINOGENICITY

Does not meet the classification criteria for this hazard class

REPRODUCTIVE TOXICITY

May cause harm to breast-fed children.

STOT - SINGLE EXPOSURE

Does not meet the classification criteria for this hazard class

STOT - REPEATED EXPOSURE

Does not meet the classification criteria for this hazard class

ASPIRATION HAZARD

Does not meet the classification criteria for this hazard class

11.2. Information on other hazards

Based on the available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with human health effects under evaluation.

SECTION 12. Ecological information

This product is dangerous for the environment and the aquatic organisms. In the long term, it have negative effects on aquatic environment.

12.1. Toxicity

AMMONIA LC50 - for Fish	47 mg/l/96h Channa punctata
EC50 - for Crustacea	20 mg/l/48h Daphnia magna
REACTION MASS OF 5-CHLORO-2- METHYL-2H-ISOT	HIAZOL-3-ONE AND 2-METHYL-2H-ISOTHIAZOL-3-ONE (3:1)
LC50 - for Fish	0,19 mg/l/96h Oncorhynchus mykiss
EC50 - for Crustacea	0,16 mg/l/48h Daphnia magna
EC50 - for Algae / Aquatic Plants	0,0052 mg/l/72h Skeletonema costatum
Chronic NOEC for Fish	0,02 mg/l Danio rerio
Chronic NOEC for Crustacea	0,1 mg/l Daphnia magna
Chronic NOEC for Algae / Aquatic Plants	0,00049 mg/l Skeletonema costatum

12.6. Endocrine disrupting properties

Based on the available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with environmental effects under evaluation.

12.7. Other adverse effects

Information not available

SECTION 13. Disposal considerations

13.1. Waste treatment methods

Reuse, when possible. Product residues should be considered special hazardous waste. The hazard level of waste containing this product should be evaluated according to applicable regulations.

Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations. CONTAMINATED PACKAGING

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

Revision nr.5 Dated 12/06/2023 Printed on 12/06/2023 Page n. 11 / 13 Replaced revision:4 (Dated 11/03/2022)

SECTION 14. Transport information

The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

14.1. UN number or ID number

not applicable

Substances subject to the Stockholm Convention:

Healthcare controls

Workers exposed to this chemical agent must not undergo health checks, provided that available risk-assessment data prove that the risks related to the workers' health and safety are modest and that the 98/24/EC directive is respected.

VOC (Directive 2004/42/EC) : One - pack performance coatings.

15.2. Chemical safety assessment

A chemical safety assessment has not been performed for the preparation/for the substances indicated in section 3.

SECTION 16. Other information

Text of hazard (H) indications mentioned in section 2-3 of the sheet:

Flam. Lig. 2	Flammable liquid, category 2
Lact.	Reproductive toxicity, effects on or via lactation
Acute Tox. 2	Acute toxicity, category 2
Acute Tox. 3	Acute toxicity, category 3
STOT SE 1	Specific target organ toxicity - single exposure, category 1
Skin Corr. 1B	Skin corrosion, category 1B
Skin Corr. 1C	Skin corrosion, category 1C
STOT SE 3	Specific target organ toxicity - single exposure, category 3
Skin Sens. 1A	Skin sensitization, category 1A
Aquatic Acute 1	Hazardous to the aquatic environment, acute toxicity, category 1
Aquatic Chronic 1	Hazardous to the aquatic environment, chronic toxicity, category 1
Aquatic Chronic 2	Hazardous to the aquatic environment, chronic toxicity, category 2
Aquatic Chronic 3	Hazardous to the aquatic environment, chronic toxicity, category 3
H225	Highly flammable liquid and vapour.
H362	May cause harm to breast-fed children.
H310	Fatal in contact with skin.
H330	Fatal if inhaled.
H301	Toxic if swallowed.
H311	Toxic in contact with skin.
H331	Toxic if inhaled.
H370	Causes damage to organs.
H314	Causes severe skin burns and eye damage.
H335	May cause respiratory irritation.
H317	May cause an allergic skin reaction.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H411	Toxic to aquatic life with long lasting effects.
H412	Harmful to aquatic life with long lasting effects.
EUH066	Repeated exposure may cause skin dryness or cracking.
EUH071	Corrosive to the respiratory tract.

Note for users:

The information contained in the present sheet are based on our own knowledge on the date of the last version. Users must verify the suitability and thoroughness of provided information according to each specific use of the product.

This document must not be regarded as a guarantee on any specific product property.

The use of this product is not subject to our direct control; therefore, users must, under their own responsibility, comply with the current health and safety laws and regulations. The producer is relieved from any liability arising from improper uses. Provide appointed staff with adequate training on how to use chemical products.

CALCULATION METHODS FOR CLASSIFICATION

Chemical and physical hazards: Product classification derives from criteria established by the CLP Regulation, Annex I, Part 2. The data for evaluation of chemical-physical properties are reported in section 9.

Health hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 3, unless determined otherwise in Section 11.

Environmental hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 4, unless determined otherwise in Section 12.

Changes to previous review: The following sections were modified: 02 / 03 / 08 / 09 / 10 / 11 / 12 / 15 / 16.
